About Projects Execution Contracting Co.

Projects Execution Contracting Company, established in 2018, was founded with a clear vision to contribute to the Kingdom of Saudi Arabia's evolving built environment through excellence in construction and project delivery. Since its inception, the company has demonstrated consistent growth and operational capability, establishing itself as a reliable participant in the Saudi construction industry.

The company specializes in the execution of high-quality projects across several sectors, including luxury residential communities, hospitality developments, and advanced healthcare facilities. Each project reflects a commitment to superior engineering standards, efficient project management, and attention to detail.

Through the integration of rigorous engineering practices, disciplined project management, and a strong commitment to quality and timely delivery, Projects Execution Contracting Company continues to strengthen its position as a trusted partner contributing to the Kingdom's ongoing development.

Vision Statement

To be a trusted leader in Saudi Arabia's construction sector, delivering high-quality developments that shape modern communities and contribute to the Kingdom's sustainable growth in alignment with Saudi Vision 2030.

Mission Statement

To deliver integrated construction services driven by quality, innovation, and efficiency through a specialized team and the use of the up-to-date technologies, ensuring projects are executed according to the highest standards to meet client goals and standards.

Why Choose PEC

Commitment to Quality

PEC is committed to delivering superior quality across every stage of the project lifecycle. Our comprehensive quality management system governs procurement, construction, and project delivery, ensuring that all work is executed in full compliance with rigorous engineering standards and project specifications.

Reliable Project Delivery

We prioritize disciplined planning and precise scheduling to ensure projects are completed on time. Through advanced planning tools, continuous monitoring, and effective project management practices, PEC consistently delivers projects according to agreed timelines.

Engineering Expertise and Innovation

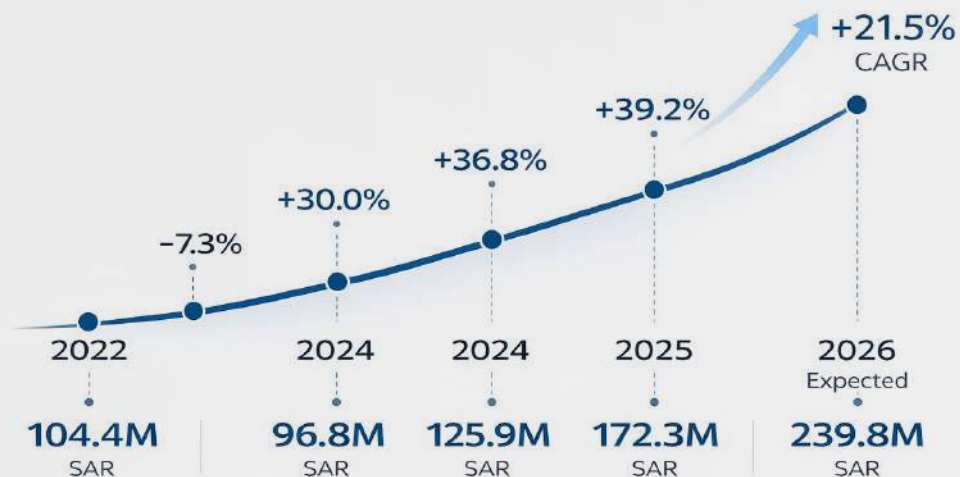

PEC provides integrated construction and engineering solutions aligned with international standards and modern technologies. Supported by a highly skilled professional team, the company brings extensive technical knowledge and industry experience to successfully deliver complex and high-value projects.

28 مشروع PROJECT

Project Duration	18 Months
------------------	-----------

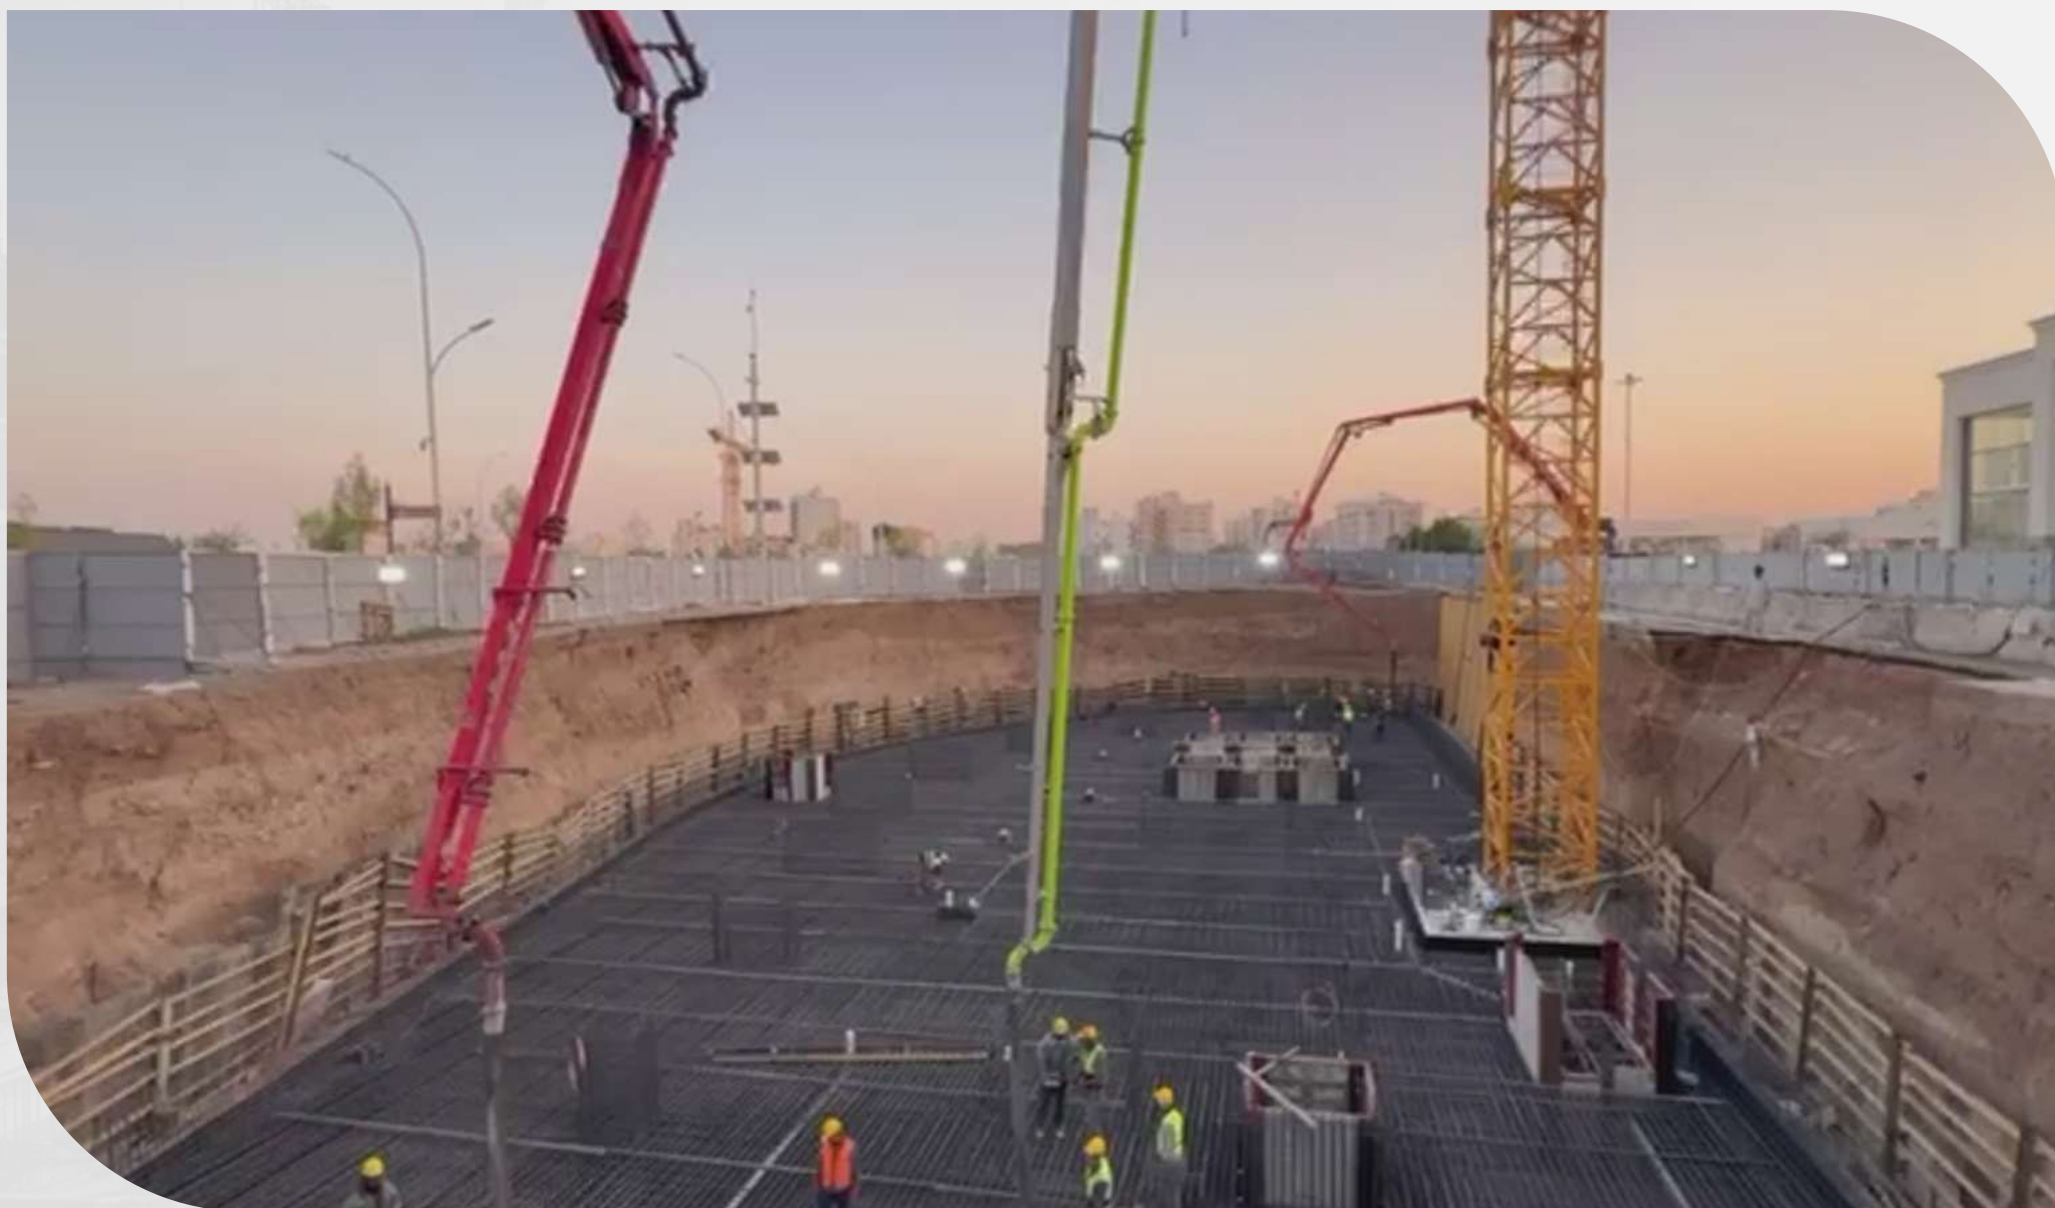

Project Cost	72,000,000 SR
--------------	---------------

Project Description
4 Star Novotel Hotel Tower (2 Basements + 12 Floors)

Built-up Area	16,000 m ²
---------------	-----------------------

Execution and construction of a luxury hotel tower (4-star), extending over a total land area of 1,600 square meters, with a height of 12 floors. The project is designed and implemented in accordance with the highest international hospitality standards, to meet the requirements of the owner, Arbah Taiba Company, and the hotel operator Novotel, which is part of the global Accor hotel group.

27 مشروع PROJECT

Project Duration 2 y & 5 Months

Project Cost 177,952,500 SR

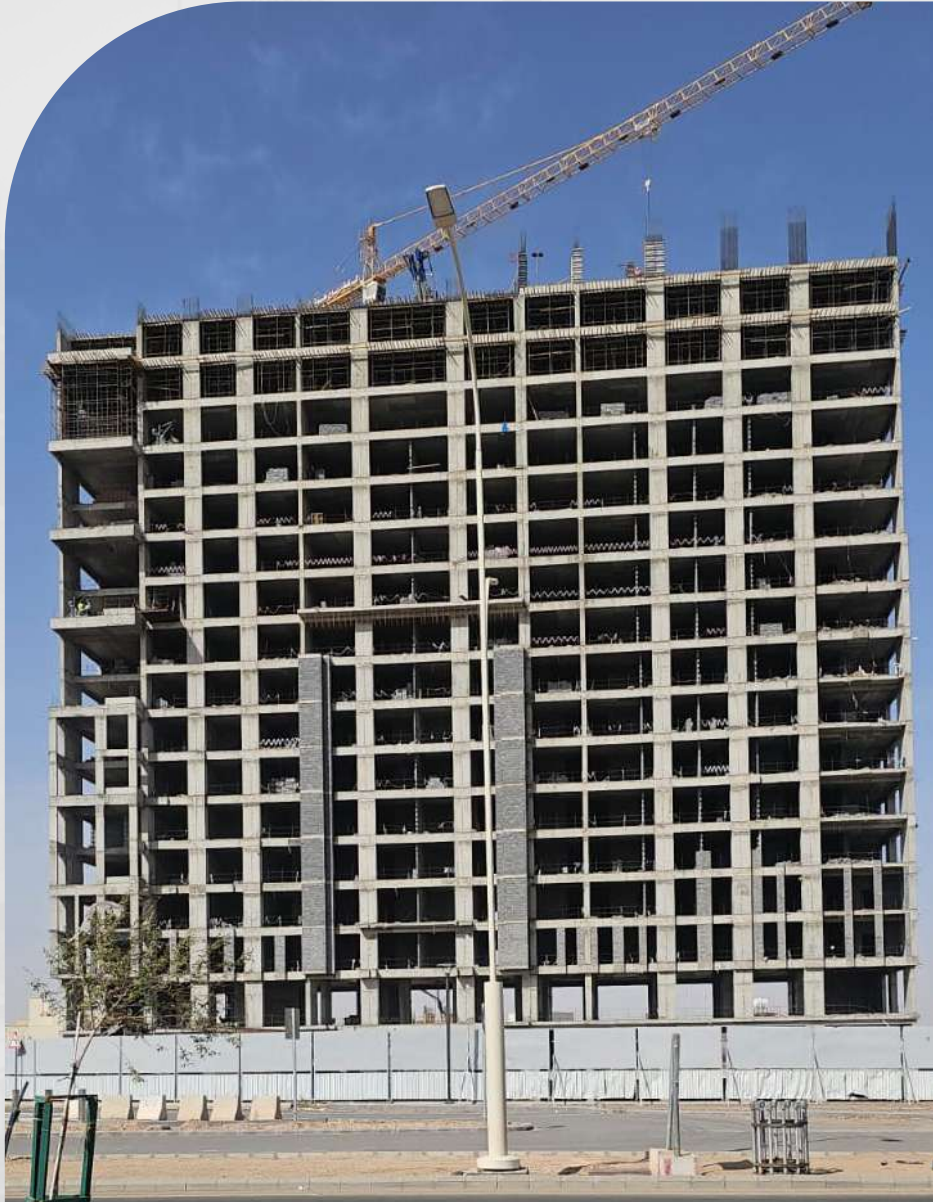

Project Description

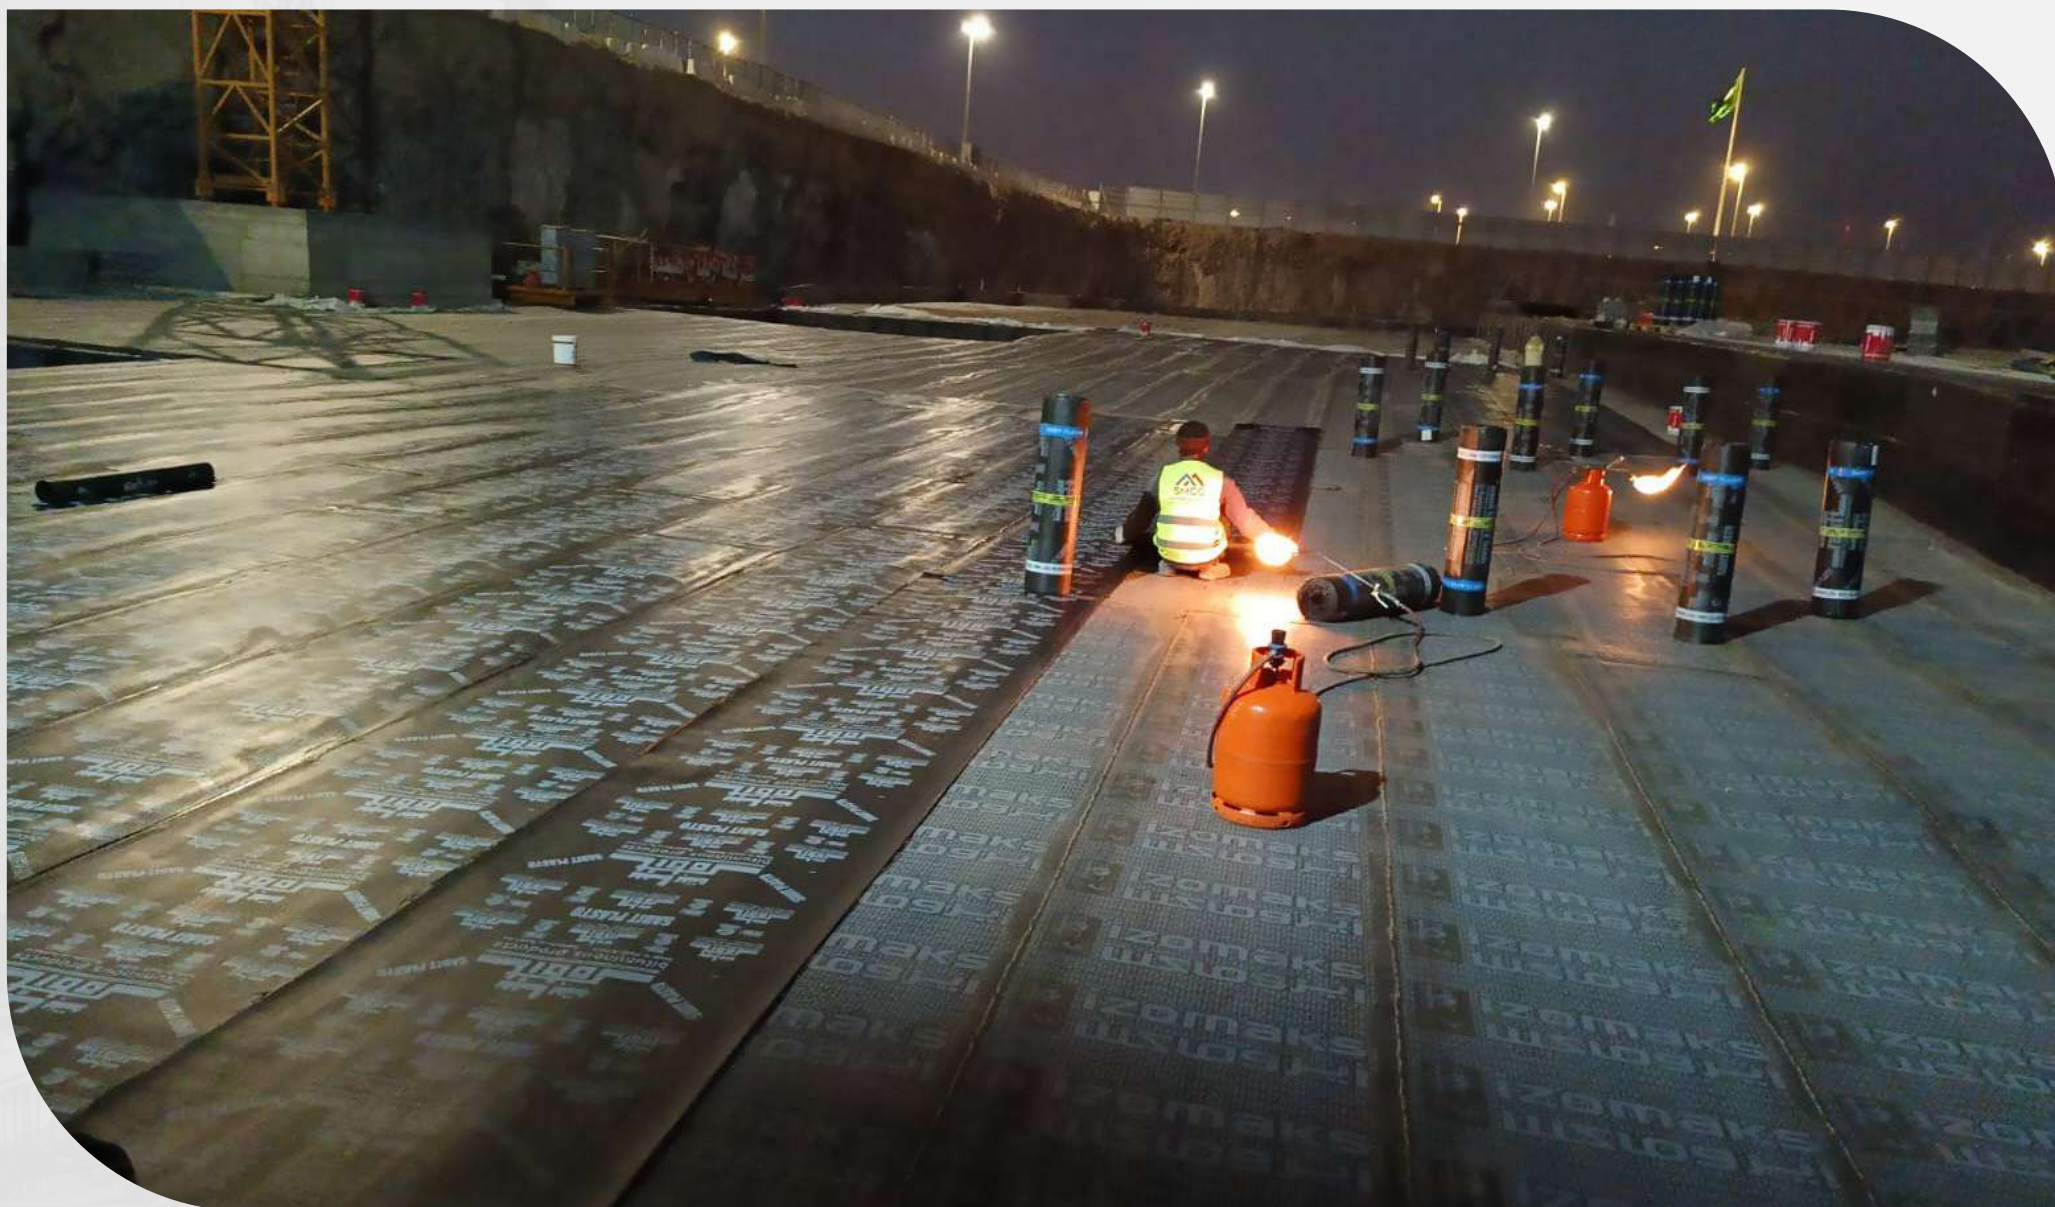

4-Star Crowne Plaza Hotel Tower
(1 Basement + 20 Floors)

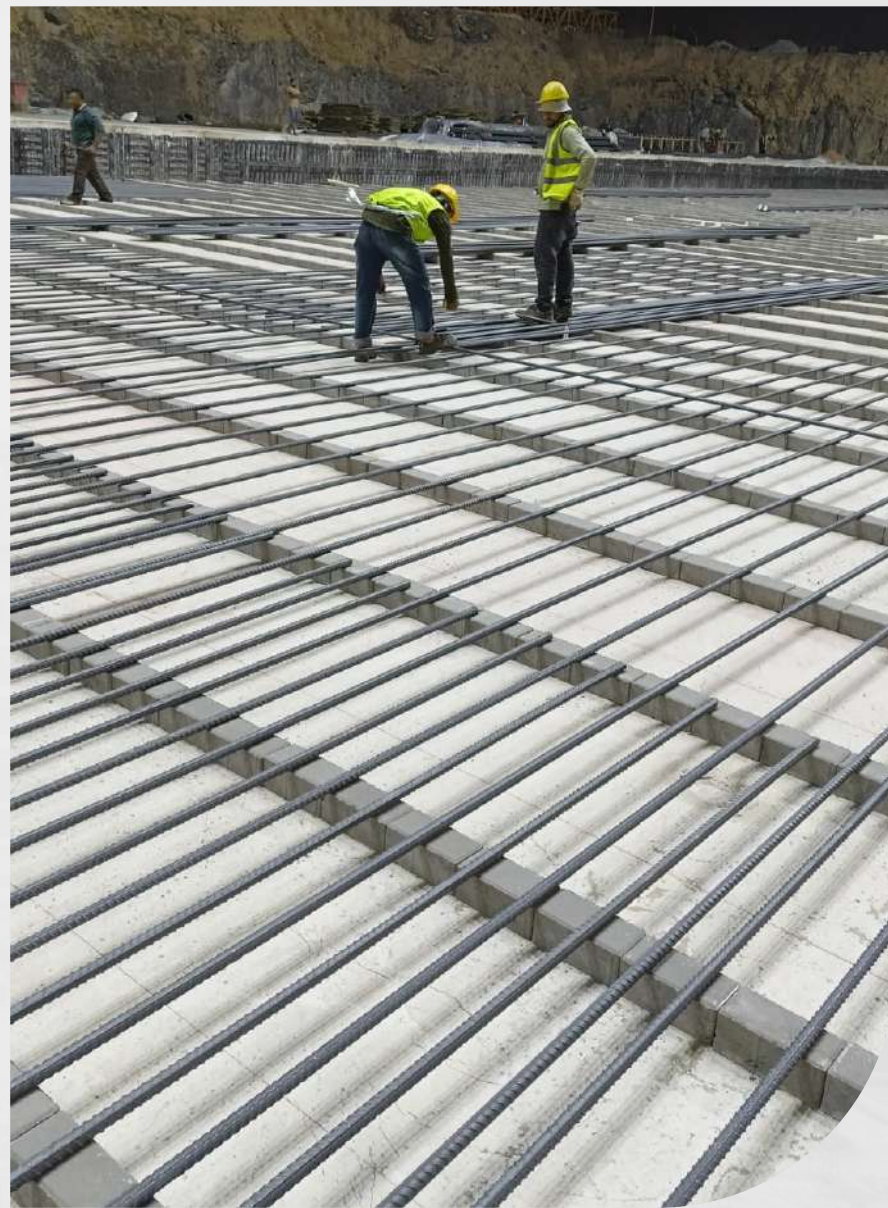

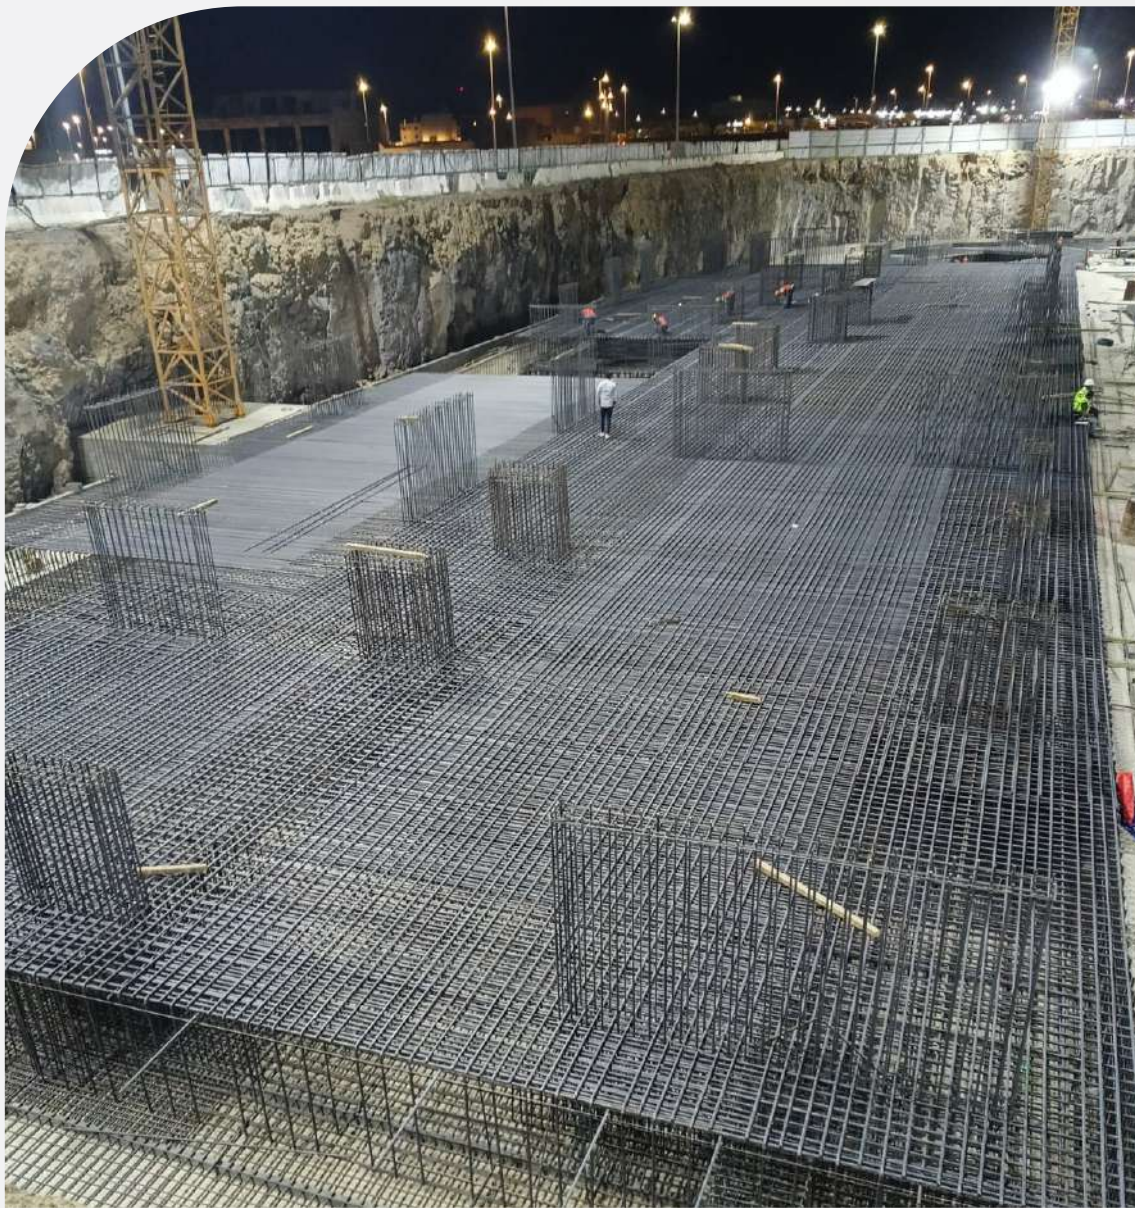

Built-up Area 39,545 m²

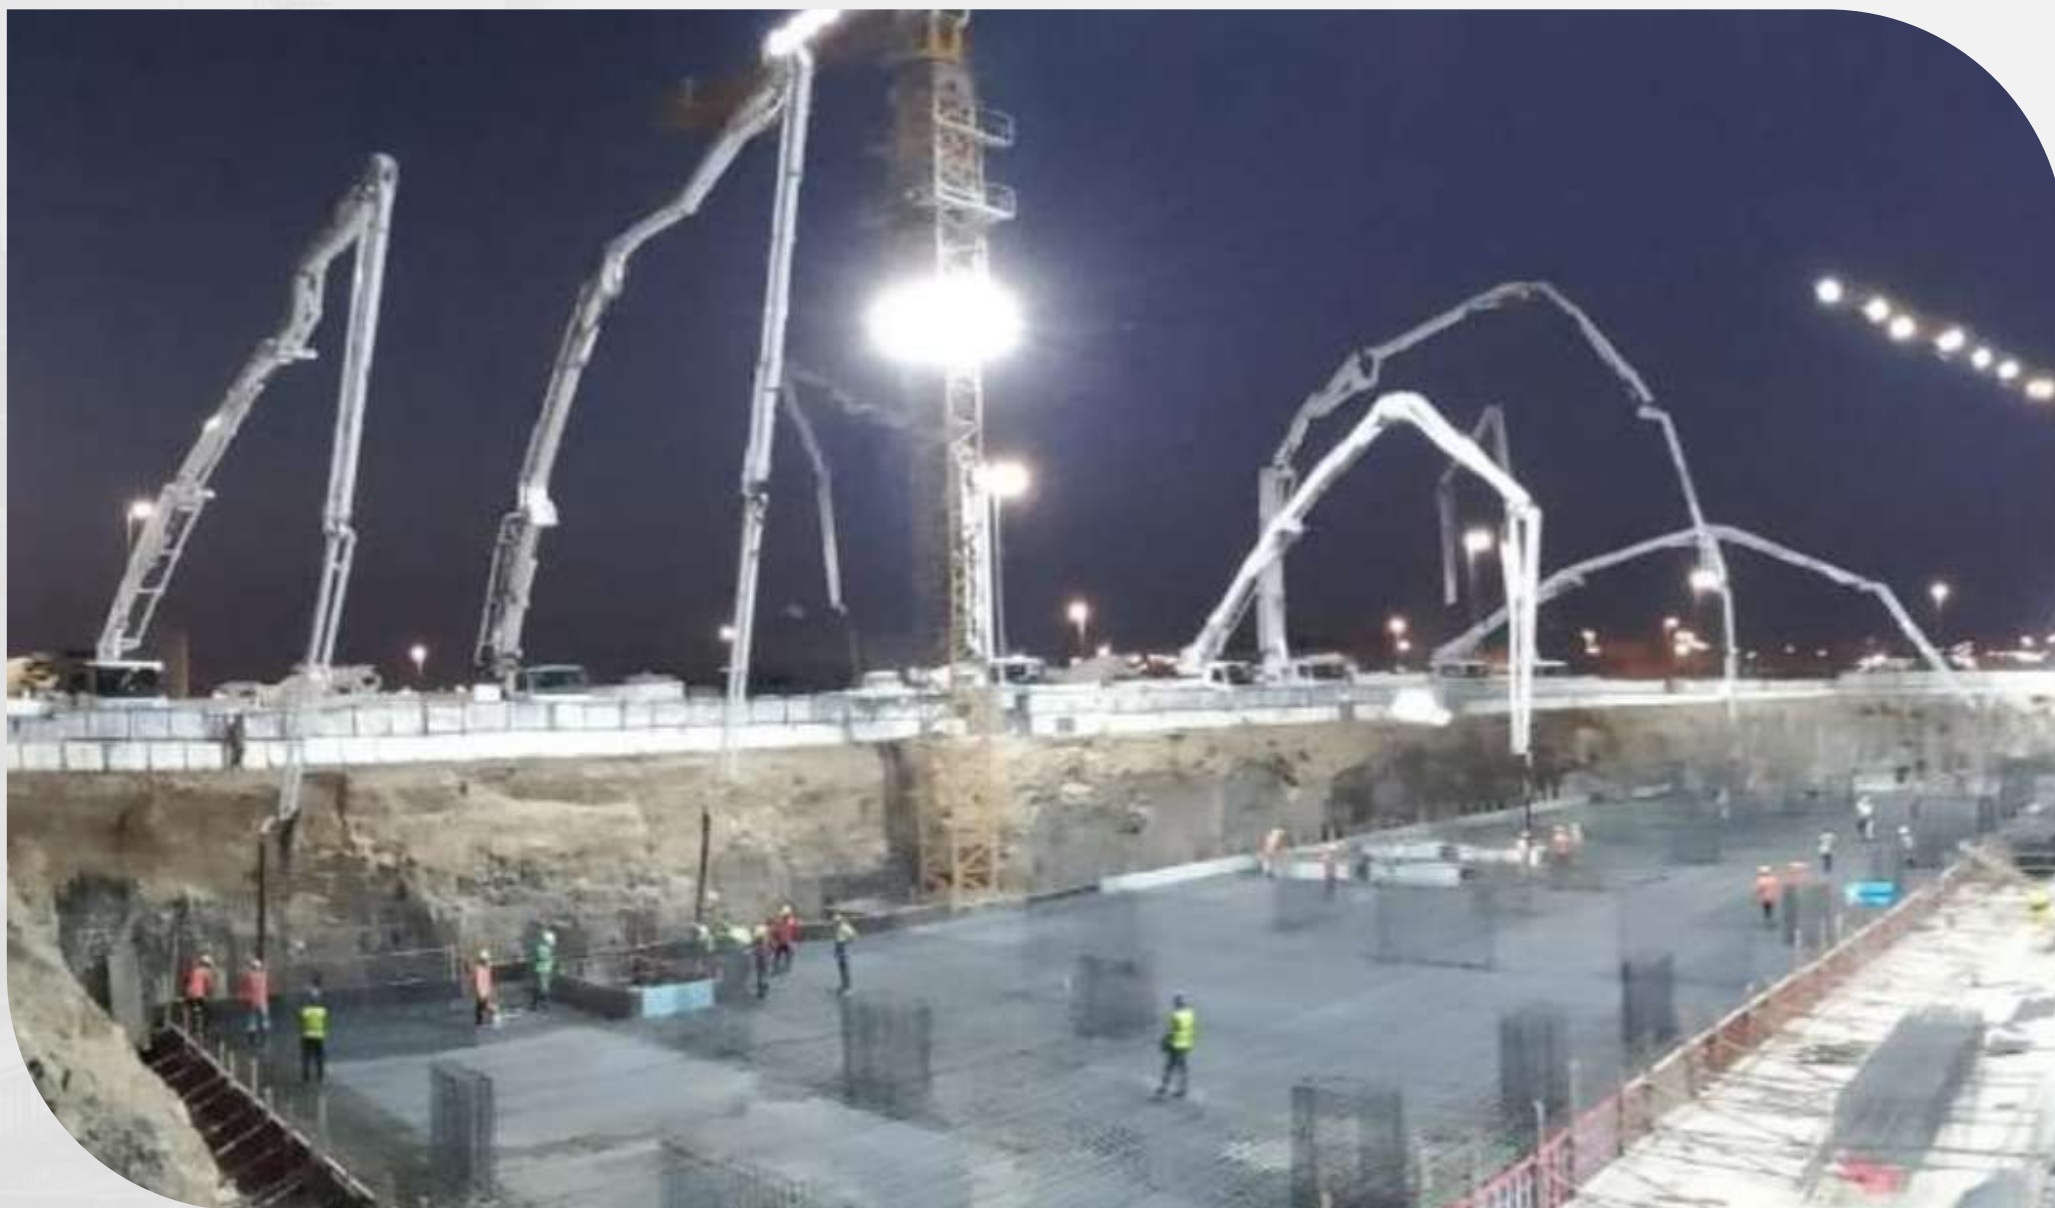

Execution and construction of a luxury hotel tower (4-star) with a total Built-Up Area (BUA) of 25,862 square meters, comprising one basement level and 20 floors, designed in accordance with the highest engineering standards.

The scope of work includes the execution of all structural, architectural, and electromechanical works, in addition to landscape works and faïade systems, to meet the requirements of the owner Arbah Taiba Company and the hotel operator Crowne Plaza, which is part of the global InterContinental Hotels Group (IHG), ensuring a refined hospitality experience aligned with 4-star international standards.

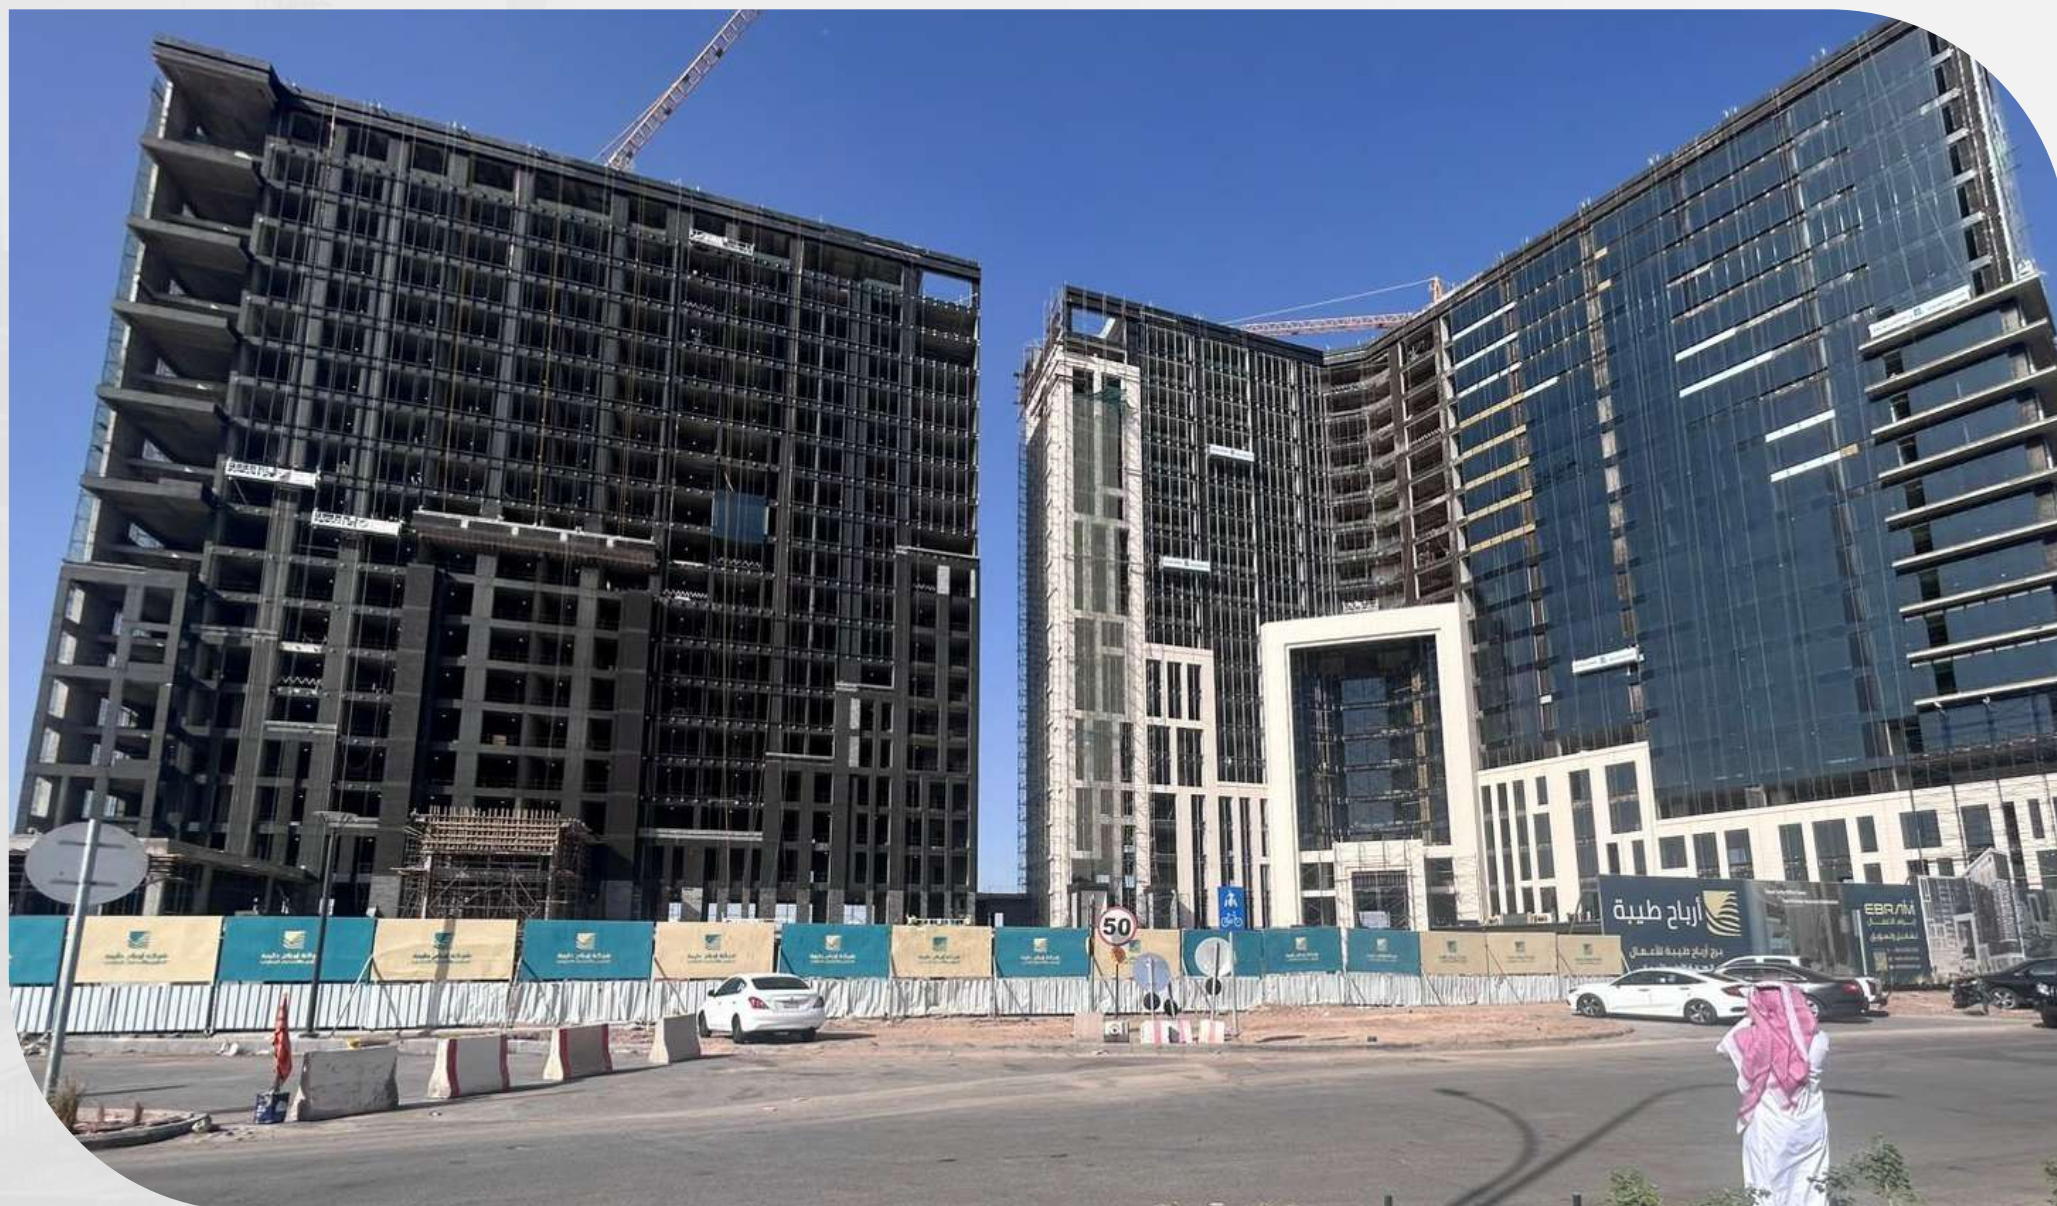

26 مشروع PROJECT

Project Duration

30 Months

Project Cost

210,915,000 SR

Project Description

Commercial and Administrative Tower
(2 Basements + 20 Floors).

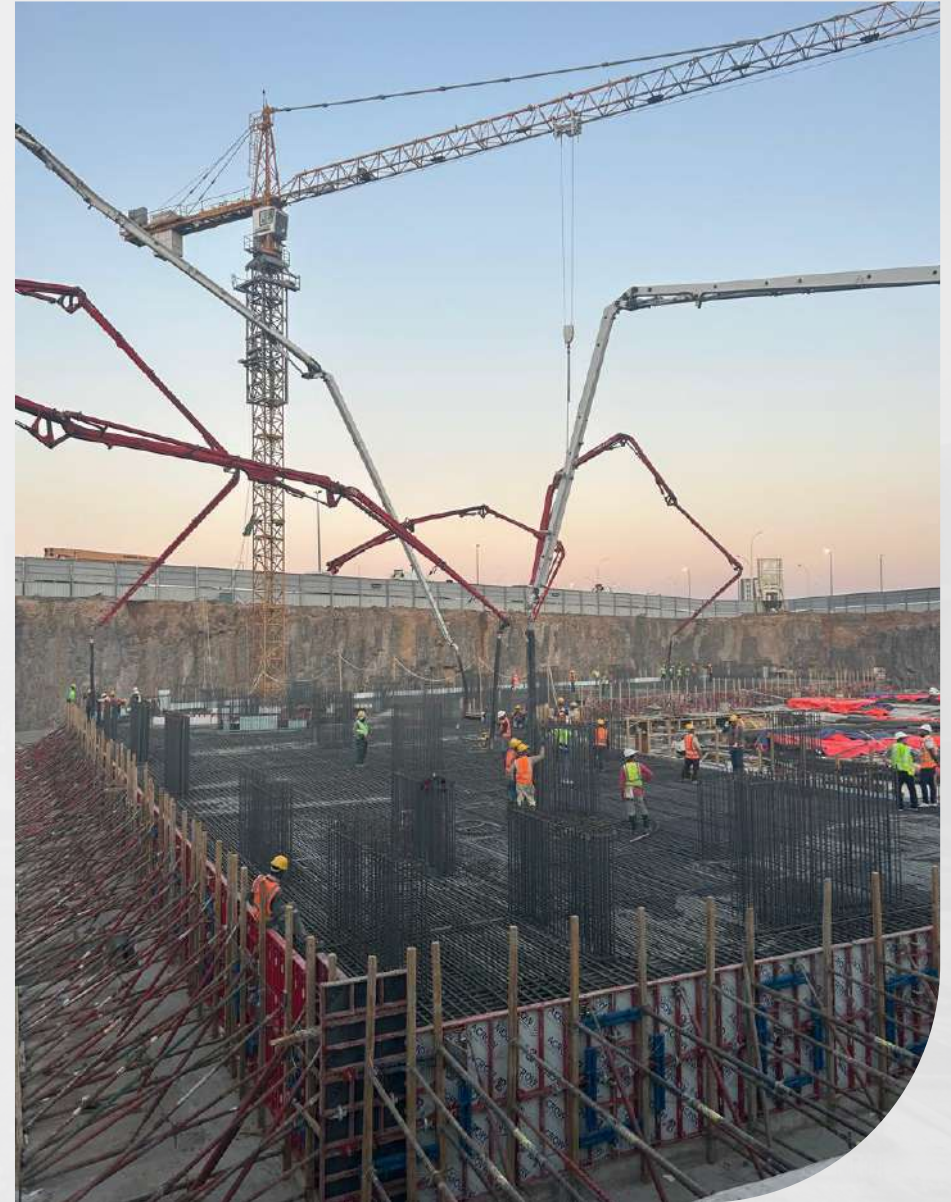

Built-up Area

46,870 m²

Execution of a commercial and administrative tower project rising 20 floors, extending over a land area exceeding 6,500 square meters. This project reflects the company's capability in delivering large-scale developments, with a total Built-Up Area (BUA) exceeding 41,000 square meters.

The project is designed to serve as a fully integrated business destination, featuring retail showrooms on the ground floor, along with two underground basement levels dedicated to parking, ensuring smooth traffic flow and convenience for visitors. The development also includes landscaped green areas, enhancing the aesthetic appeal of the site while creating a modern and sustainable working environment.
